

Contaminated land assessment site history questionnaire

Complete this form to enable Southern Water assess whether there is a risk of contaminants in the ground that could contaminate the drinking water supply. Where contamination does exist, Southern Water will specify the use of barrier pipes made of a high specification material. Any private pipework will also need to be to a similar specification.

Section A: Contact details

Official status (please tick): Developer Self-lay provider Consultant

Other (please specify)

Company name:

Preferred contact or SME:

Contact address:

Phone:

Email:

Postcode:

Section B: Site details

Site address:

Development name:

Phase:

OS grid reference at site entrance (six figures each):

X	<input type="text"/>	Y	<input type="text"/>
---	----------------------	---	----------------------

Postcode:

Section C: Contamination report

Have you commissioned a soils analysis which includes a contamination report? Yes No

If 'yes', you do not need to complete sections 'D' and 'E' provided you attach the following:

- A copy of the contamination test data showing details of contamination concentrations (a general summary is not sufficient)
- A plan showing the position where each core sample was taken.

Please note, the water industry requires samples to be taken to a depth of one metre and will be analysing the results in accordance with threshold levels recommended by the Water Regulations Advisory Scheme (WRAS).

Section D: Former land use

Please provide a tick against any of the following purposes for which the site or an adjacent site has previously been used:

Petrol filling station	<input type="checkbox"/>	Other fuel storage	<input type="checkbox"/>	Chemical works/storage	<input type="checkbox"/>	Landfill site	<input type="checkbox"/>
Motor mechanics	<input type="checkbox"/>	Coal yard	<input type="checkbox"/>	Burial ground	<input type="checkbox"/>	Tannery	<input type="checkbox"/>
Docks or boatyard	<input type="checkbox"/>	Scrap yard	<input type="checkbox"/>	Military camp	<input type="checkbox"/>	Vehicle parking area	<input type="checkbox"/>

Section E: Former site activities

Please tick to indicate if any of the following activities/incidents have happened on the site:

Home motor mechanics	<input type="checkbox"/>
Fuel spillage (eg. central heating oil, Kerosene)	<input type="checkbox"/>
Fly tipping	<input type="checkbox"/>

Section F: Visual site inspection

A visual inspection of the site shows:

No obvious signs of contamination	<input type="checkbox"/>
Evidence of possible contamination	<input type="checkbox"/>

Section G: Contaminated land assessment form

Please complete the Water UK/House Builders Federation (HBF) contaminated land assessment form (Risk Assessment for Water Pipes) provided.

Section H: Checklist and declaration

I confirm that I have completed this questionnaire to the best of my ability and that every attempt has been made to ensure the information provided is accurate:

Name:

Date:

Please note: Insufficient information may result in delays.

Please send your completed form to:
